Second Training Course on Pollution Reduction in Coal-fired Power Plants in NEA

3-16 December 2002

Daejeon, Republic of Korea

Summary Report

1. The Second Training Course on Pollution Reduction in Coal-fired Power Plants in North East Asia was held in Daejeon, Republic of Korea, from 3 to 16 December 2002. The Training Course was organized jointly by ESCAP and the Korea Electric Power Research Institute (KEPRI), Republic of Korea, as the 2nd event of the North-East Asian Training Center on Pollution Reduction on Coal-fired Power Plants, which was established in KEPRI under auspice of the framework of the North-East Asian Subregional Programme on Environmental Cooperation (NEASPEC).
2. The Training Course was attended by trainees and national experts from China and Mongolia. The list of Participants is attached Annex 1.
3. The lecturers and on-site observations were conducted according to the Training Course Programme which was recommended by the Expert Group Meeting (Ulaanbaatar) and subsequently endorsed by the Fifth Meeting of Senior Officials on Environmental Cooperation in North-East Asia (Kobe, Japan, 20-26 Febuary, 1999). The Training Course Programme is attached as Annex 2.
4. The evaluation/review session was conducted at the end of the training course. The participants mostly expressed their satisfaction about the Training Course, and also expressed sincere gratitude to KEPRI and its staff for efficient arrangement for organization of the Training Course as well as their warmest hospitality. The participants submitted evaluation/ review reports to ESCAP, of which major elements are outlined in Annex 3.
5. A more comprehensive report will be prepared by KEPRI and submitted as the final report for NEASPEC as well as the Ninth Meeting of Senior Officials on Environment Cooperation in North-East Asia.
