

Action Plan Framework

NEASPEC

Nature Conservation Project

Sub-regional Action Plan

- Draft Contents
 - Introduction
 - Overall Goals
 - Sub-regional conservation strategy
 - Species status
 - Priority Actions
 - Project proposal

Draft Contents - 1

- Introduction

- Background of the project

- Overall Goals

- (ex.) Establishment of long-term viable population of target species which is compatible with sustainable development in the sub-region

Draft Contents - 2

- Sub-regional Conservation Strategy
 - (ex.) Sub-regional collaboration through;
 - Information sharing
 - Data sharing
 - Joint research / monitoring
 - Ex-situ management ... etc.

Draft Contents - 3

- Species status
 - Taxonomy
 - Distribution and population
 - Life history
 - Threats
 - Current Conservation Activities and gaps

Draft Contents - 4

- Priority Actions

- Objectives and expected Outputs
- Actions
- Time frame

- Project proposal

- In situ conservation sites
- Ex situ conservation centers

What kind of Actions?

- NEASPEC is a Sub-regional inter-governmental framework
- Responsibility for conservation activities on the ground is taken by each Government
- What can / should NEASPEC do?
 - Collaboration in what / how?
 - To be discussed during Expert meeting ...
