

Bilateral & Multilateral Cooperation Experience of the Republic of Korea

2011. 10. 11, Changwon

LEE WON HEE

International Cooperation Division

KOREA FOREST SERVICE

Contents

1. Background

2. Efforts to Rehabilitate Northeast Asia

3. Future Plan

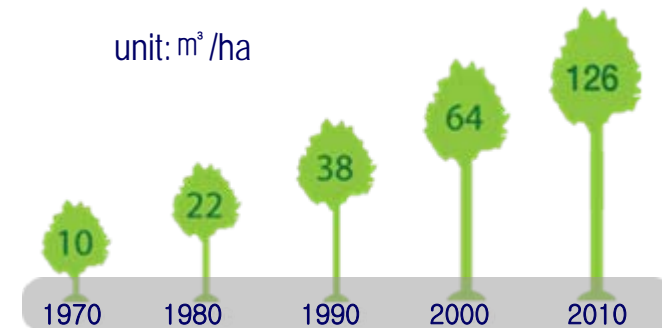

1. BACKGROUND

◆ History of reforestation in Korea

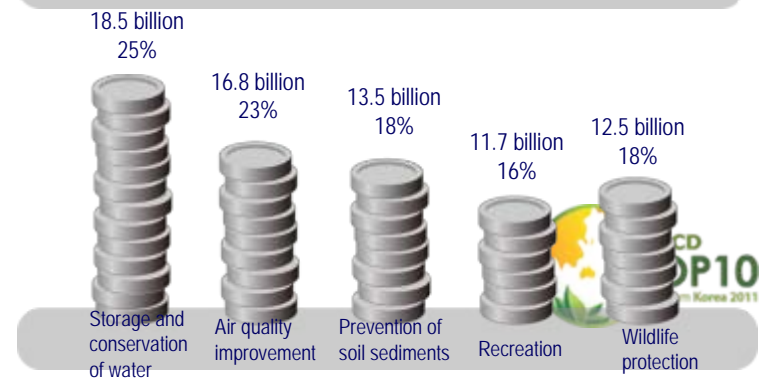

- We planted 12 billion trees at degraded area from 1962
- Forest resources have increased up to 13 times, with public benefit worth of US\$ 73 billion/year for the last four decades

Forest Growing Stock (Quantity of trees)

Public Benefits on Forest (US\$ 73 billion)

◆ Dust and sandstorm (DSS) in Korea

- Continuous increase of various damages caused by DSS in Korea

- Phenomenon of DSS per year (Seoul):
1980's: 3.9 days → 1990's: 7.7 days → 2000's: 12.2 days
- Increased illness, air pollution, disruption in social activities and reduced productivity in business sector

☞ Korea has promoted international cooperation projects of afforestation and rehabilitation to combat desertification and dust and sandstorm in Northeast Asia since 2000.

A decorative green leafy branch with small dark berries extends from the top right corner of the slide.

2. EFFORTS TO REHABILITATE NORTHEAST ASIA

I. Bilateral Cooperation Projects

- ◆ For last decade(2000~2010), Korea planted 12,225ha in east asia region for combating desertification and forest rehabilitation
 - Mongolia : 879 ha, China : 10,746ha, Myanmar : 600ha
- ◆ Three projects for combating desertification in Northeast Asia are currently in process by Korea Forest Service.

I. Bilateral Cooperation Projects

1. Completed Projects

1-1. Plantation Project in Western China

1-2. Forest Rehabilitation of Arid Region in Central Myanmar

2. On-going Projects

2-1. Greenbelt Plantation Project in Mongolia

2-2. Small-scale A/R CDM Pilot Project of Mongolia

2-3. Plantation Project in Kubuqi Desert of China
(Private Support on Plantation for Desertification)

1. Completed Projects

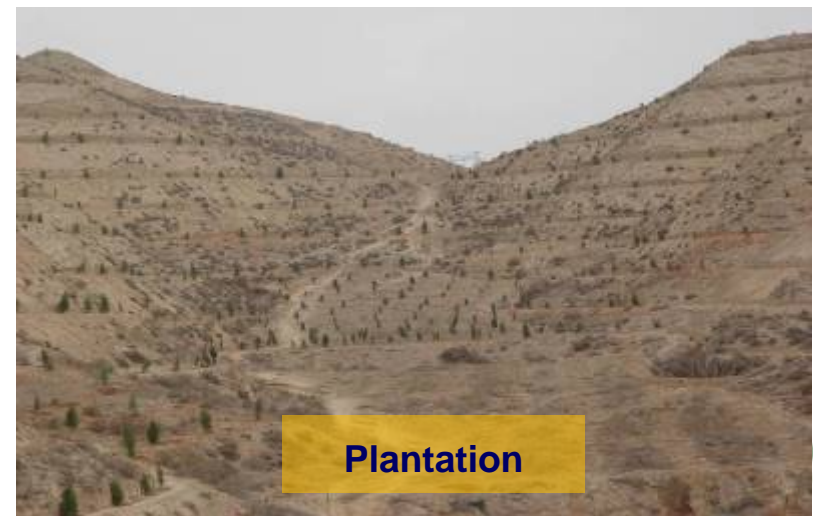

1-1. Plantation Project in Western China

Plantation to combat desertification
8,040ha (2001-2005, 5M USD, KOICA fund)

1. Completed Projects

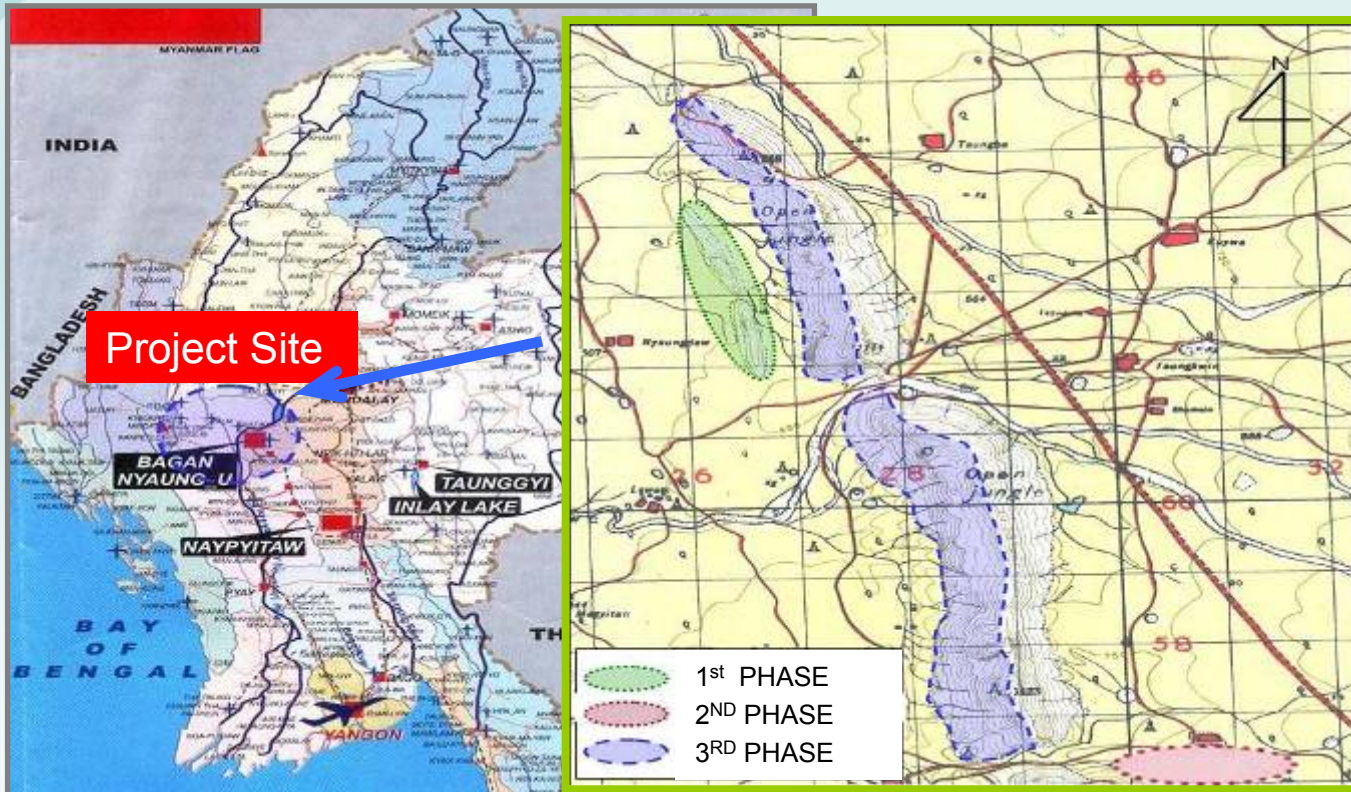

1-1. Plantation Project in Western China

1. Completed Projects

1-2. Forest Rehabilitation of Arid Region in Central Myanmar

Forest rehabilitation and management
600ha (2000 – 2010 2M USD, KOICA Fund)

1. Completed Projects

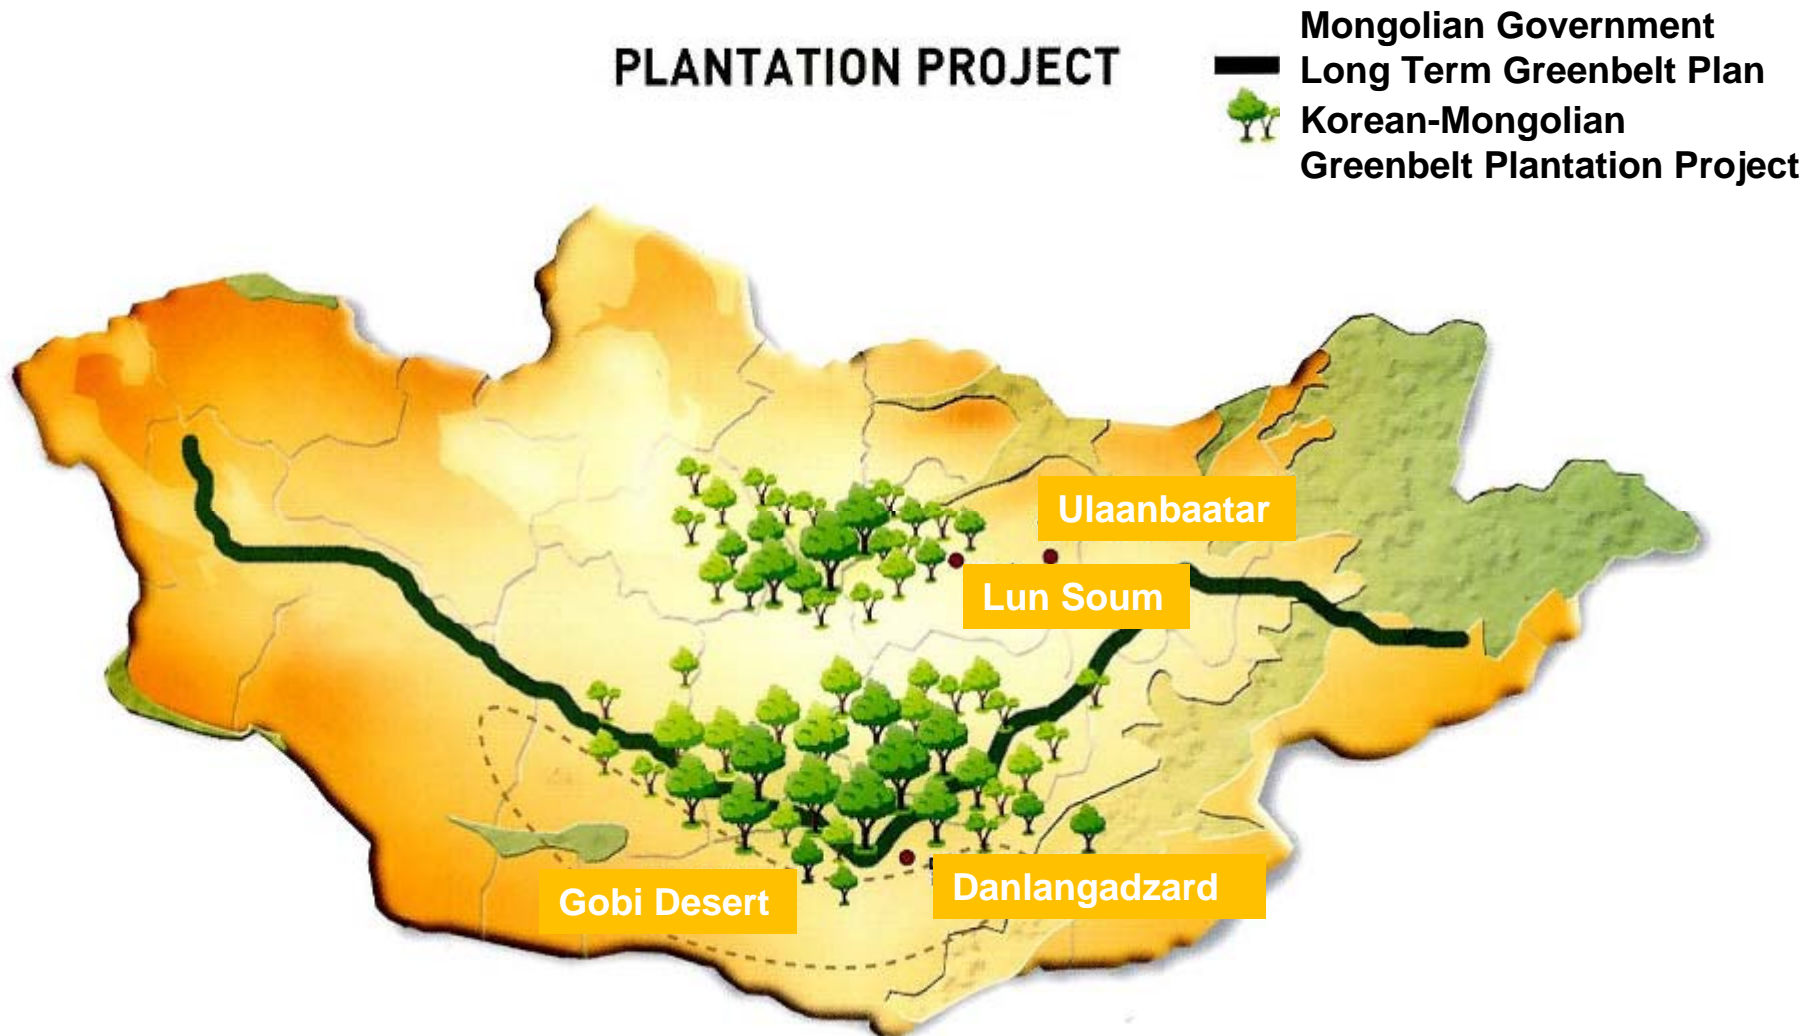

- Period : **2001~2010**
- Location : **Nyaung-U Township, Mandalay Province**
- Budget : **2M USD**
- Activities
 - **Forest rehabilitation (600ha) and post management**
 - **Office building construction**
 - **Expert dispatch**
 - **Training programs**
 - **Providing equipment**

1. Completed Projects

2. On-going Projects.

2-2. Greenbelt Plantation Project in Mongolia

2. On-going Projects.

2-1. Greenbelt Plantation Project in Mongolia

◆ Period : 2007 ~ 2016

◆ Budget : 10M USD

◆ Purpose

- Prevention of desertification and dust sandstorm through plantation (3000ha)
- Enhancement of contribution to international society by sharing successful experiences and forest rehabilitation technologies of Korea

◆ Achievements

- Built up the foundation of the project and established tree nurseries for production of saplings (2007)
- 651ha of arid area was planted for 3 years
200 ha ('08), 223 ha ('09), 228 ha ('10), 250 ha ('11 plan)

2. On-going Projects.

2-1. Greenbelt Plantation Project in Mongolia

◆ Main Activities

- Forest rehabilitation in desert area
 - Plantation for combating desertification and management of planted area
 - ※ KFS project manager was dispatched and directly implemented the project since 2007
 - Establishment and management of tree nurseries
- Capacity building
 - Dispatch of Korean experts (once a year)
 - Training course for local people on plantation, pest control, etc. (more than twice a year):
 - Establishment of education center (2009)
- Others
 - Joint research
 - Provide equipments and materials
 - Reinforcement of cooperation between local communities and NGOs

2. On-going Projects.

2. On-going Projects.

2-2. Small Scale A/R CDM Pilot Project

◆ **Period** : 2010 ~ On-going

◆ **Purpose**

- To develop new model of desertification prevention project in connection with small scale Afforestation and Reforestation Clean Development Mechanism (A/R CDM)
- To enhance sustainability on combating desertification and participation of private sector through the acquisition of carbon credit

◆ **Progress**

- Development of work plan (2010)
- Implementation of feasibility study and selection of project site (2010)

◆ **Future Plan**

- Prepare Project Design Document (PDD) and register it to CDM Executive Board (EB) of UNFCCC(~ 2012)
- Conduct the project and implement monitoring and assessment (2012~)

2. On-going Projects.

2-3. Plantation Project in Kubuqi Desert (China)

Developing Great Green Wall In Kubuqi Desert (2007 – on going)

2. On-going Projects.

2-3. Plantation Project in Kubuqi Desert (China)

◆ Purpose

- To combat desertification and prevent dust and sandstorm (DSS) through supporting private sector's activities (Implemented by CSO - Future Forest)

◆ Main Activities

- ① Sand fixation to prevent shifting of sand and plantation of drought resistant trees
- ② Installation and maintenance of forest road
- ③ Technology transferring and dispatching green volunteers

◆ Achievements

- 804 ha of desert area was rehabilitated for 4 years ('07- '10)
 - ※ Main species of trees are white poplar, poplar and desert willow trees.
- Dispatched Green Volunteers (100 person/yr) to the project site for raising awareness on desertification and dust and sandstorm.

2. On-going Projects.

2-3. Plantation Project in Kubuqi Desert

Signboard for Plantation Project

White Poplar Plantation Area

Green Volunteers' Commemorative Planting

Plantation after Sand Fixation Work

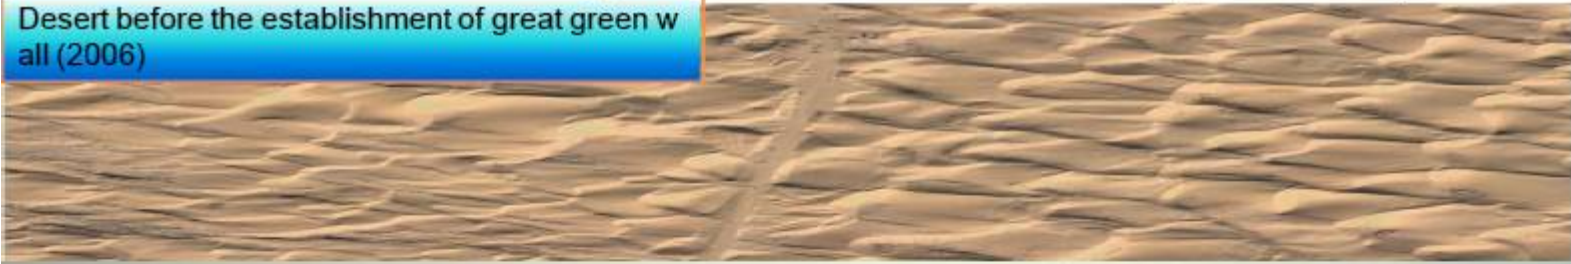

Construction of Forest Road

2. On-going Projects.

2-3. Plantation Project in Kubuqi Desert

Desert before the establishment of great green wall (2006)

Great green wall (2007)

Great green wall after 3 years of planting trees (2009)

II. Multilateral Cooperation

1. Cooperation Projects with UNCCD

- 1-1. Assessment of Plantation Projects carried in China and Mongolia
- 1-2. Publishing "Combating Desertification and Land Degradation; Proven Practices from Asia and the Pacific"

2. Northeast Asia Forest Network (NEAFN)

- 2-1. NEAFN History and Activities in Past
- 2-2. Improvement from NEAFN to DLDD-NEAN

1. Cooperation Projects with UNCCD

1-1. Assessment of Plantation Project carried in China and Mongolia

◆ Period : 2009 ~ 2010

◆ Budget : 18,000 USD

◆ Purpose (Achievements)

- Investigation of plantation sites to combat desertification that have been established by the Korean side including the KFS
- Production of an advanced model through technical measures and policy approaches for addressing land degradation and desertification in the affected regions
- Suggestion of a demonstration project proposal for A/R CDM under UNFCCC to combat desertification

1. Cooperation Projects with UNCCD

1-2. Publishing “Combating Desertification and Land Degradation; Proven Practices from Asia and the Pacific”

◆ **Period** : 2010 ~2011

◆ **Budget** : 56,000 USD

◆ **Purpose (Achievements)**

- **Production** of useful and valuable documents on DLDD mitigation in the region
- **Application** of the best practices and know-how in DLDD mitigation in other affected areas of the region
- **Improvement** of research and development of affected ecosystems' services through information-sharing and technology transfer
- **Generation** of global benefit, awareness-raising and capacity-building in addressing the DLDD issues

2. Northeast Asia Forest Network

2-1. NEAFN History and Activities in Past

- ◆ **The first meeting** on establishment of the NEAFN was held in Seoul, Sep 18th, 2007
 - ※ **Korea Forest Service made a proposal on establishment of Northeast Asia Forest Network.**
 - **Purpose** : Enhancement of cooperation in forest sector in northeast Asia region
 - Combating desertification and dust & sandstorms
(information sharing and experience exchange in desertification)
 - Measures on prevention and mitigation of forest invasive pests and diseases spread and transfer
 - **Members** : China, Mongolia, Republic of Korea
and the UNCCD Asia Regional Coordination Unit

2. Northeast Asia Forest Network

2-1. NEAFN History and Activities in Past

- ◆ **The second meeting** was held in Beijing, China on Dec, 2008.
 - **The draft of NEASRAP** was delivered by UNCCD ARCU and members endorsed it to function as a framework plan for the network operation
- ◆ **The third meeting** was held at Seoul, Korea on Jun, 2011.
 - **Information sharing** (presentation) of member's policies, researches, works on combating desertification
 - **Discussions on reforming the network** and plan of enhancement of former cooperation

2. Northeast Asia Forest Network

2-2. Improvement from NEAFN to DLDD-NEAN

- ◆ **Title** : Northeast Asia DLDD Network (DLDD-NEAN)
- ◆ **Purpose** : Promoting implementation of SRAP under UNCCD and 10-year Strategy to resolve DLDD matters including dust and sand storm
- ◆ **Participant** : Diverse stakeholders including NGOs, academia, research institutes and company
- ◆ **Main Activities**
 - Sharing member's policies, information, technology about DLDD
 - Enhancement of collaboration project for reducing DLDD under SRAP
 - Promoting implementation of NAP and Capacity building for reducing DLDD
 - Strengthening cooperation with other international organizations

2. Northeast Asia Forest Network

2-2. Improvement from NEAFN to DLDD-NEAN

◆ Future Plan

- The signing of the MOU between members
 - Signing the MOU on improvement and management of the network between ministers of member countries
(The signing ceremony will be held during UNCCD COP 10)
- Regular conference meeting and development of projects with organization of a steering committee
- Enforcement of various cooperation projects to reduce DLDD
 - Enforcement of demonstration projects linked to SRAP
 - Cooperation with other international organizations
(Like as NEASPEC, UNEP, ADB)

3. FUTURE PLAN

- 
- ◆ **Facilitate** a way to expand cooperation project
 - ◆ **Resource mobilization** to support the affected country Parties in the sub-region
 - ◆ **Encourage** CSOs and private sectors' involvement
 - ◆ **Focus on** action-oriented field activities related with local people and sustainable development

Thank You !
